🛒 Giant Supermart Singapore

Executive Business Intelligence Dashboard · 2022–2024

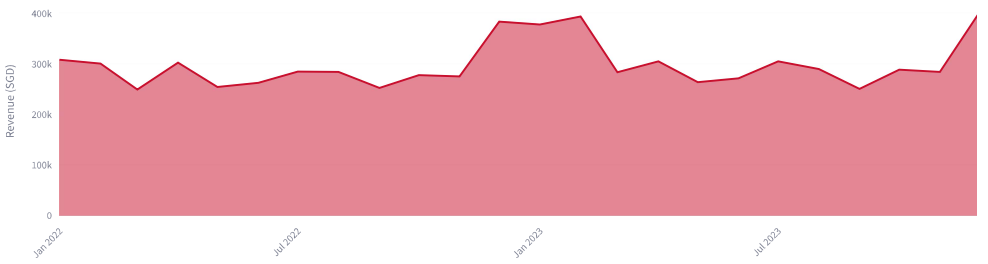
Executive Summary: Giant Supermart generated SGD 11.1M across 120,000 transactions from 2022 to 2024. The business saw steady annual growth, with Central as the top-performing region, strong margins in Health & Wellness, and visible demand uplift during festive and policy-driven periods.

💰 Total Revenue	🧾 Total Transactions	🛒 Avg Basket	📈 Gross Profit	📊 Gross Profit Margin
SGD 11.06M	120,000	SGD 92.18	SGD 3.95M	38.6%

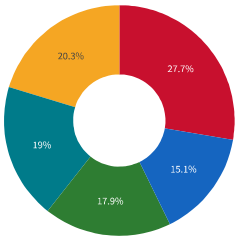
Top Highlights:

- Revenue increased steadily across all 3 years
- Central region is the largest contributor
- Weekend shopping contributes a large revenue share
- Health & Wellness is one of the strongest margin categories
- All 26 data quality tests passed

📈 Monthly Revenue Trend (SGD)



🗺️ Revenue by Region

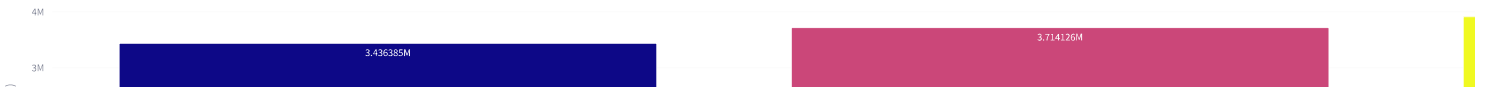


Insight: Revenue shows consistent growth across 2022–2024, with visible peaks during festive periods such as year-end and major holidays. This indicates strong seasonal demand patterns that can be leveraged for inventory planning.

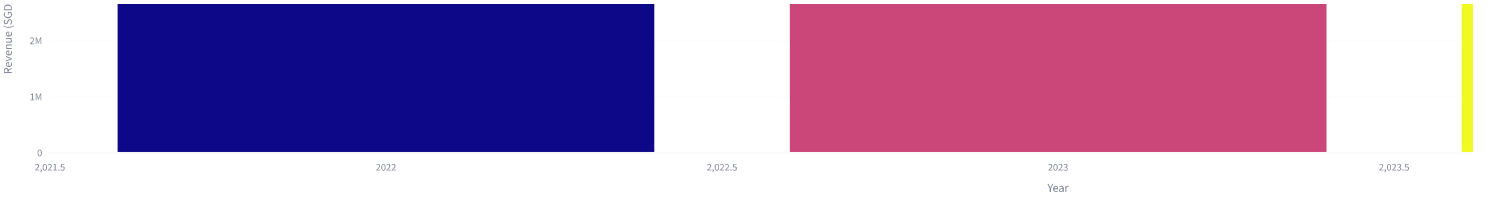
Insight: Central region contributes the largest share of revenue, likely driven by higher footfall and tourist activity. West region shows the lowest share, indicating potential growth opportunities.

Year-over-Year Comparison

Annual Revenue Comparison



Giant Supermart SG Analytics



Insight: Revenue increased from 2022 to 2024, with strong growth in 2023 (+8.1%) followed by steady growth in 2024 (+5.3%). This suggests the business is expanding but growth is stabilizing.

Executive Conclusion: Giant Supermart demonstrates stable revenue growth, strong regional performance in Central areas, and high profitability in selected categories. Future growth can be driven through targeted promotions, loyalty programs, and regional expansion.
